C-O-N-F-I-D-E-N-T-I-A-L

50X1-HUM

COUNTRY: Poland

DATE: 23 December 1957

SUBJECT: Polish Iron and Steel Plant Investment NO. OF PAGES: 1
Allocations for "Social Constructions".

50X1-HUM

1. [redacted] within both the five and six-year national plans, only about one and one-half percent of total investments in the construction of iron and steel plants in Poland was allocated for social construction. Social construction included: wash-rooms and showers, locker rooms, toilets, recreation rooms, cafeterias, and mess halls; polyclinics and dispensaries in large factories, and numerous nurseries and some kindergartens.
2. Not included in the above-mentioned one and one-half percent were safety constructions and installations such as ventilation facilities, dust and fume collecting equipment, purification of sewage and waste equipment, and accident prevention devices on machinery and railroad sidings. For this category, about three percent to three and one-half percent of the total investments was allocated.
3. Also not included were electro-soot ventilators for chimneys, buildings and facilities constructed outside the factory grounds, such as hostels for workers, apartment houses for employees, cultural centers, movie theaters, sport grounds, and vocational training schools. These were constructed and financed from other funds supplied by both industry and by the Ministry of Communal Economy. About two percent of the total investments was allocated.
4. [redacted] about 18 percent of total investments for the construction of the Lenin Steel Works in Nowa Huta was allocated for housing construction.
